ABOUT US

Integra Rehabilitation Center provides quality physical, occupational and hand therapy via individualized treatment protocols that are paramount to patient recovery. Using a team approach consisting of physiatrists, consulting orthopedic surgeons, athletic trainers, physical and occupational therapists, we can successfully return patients back to their initial level of activity. Athletes and weekend warriors require a high level of expertise and our sports team will help monitor your recovery utilizing exercise physiology testing and sports specific rehabilitation. We understand that injuries and pain make even normal activities challenging and Integra Rehabilitation Center will help you recover utilizing compassionate and caring professionals, always ready to help.

We offer patients immediate scheduling, a cheerful and aesthetic environment, all creating the best rehabilitation experience possible.
